Cheetah Professional Gaming Keyboard

◆ Overview

The Cheetah gaming keyboard is one in a series of powerful gaming devices for serious gamers. Cheetah provides programmable Game-Keys. So hardcore users can easily control macros.

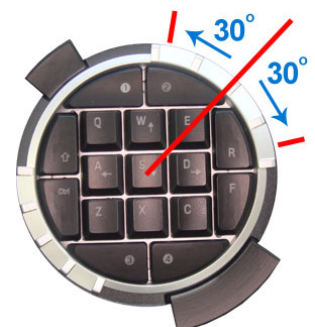

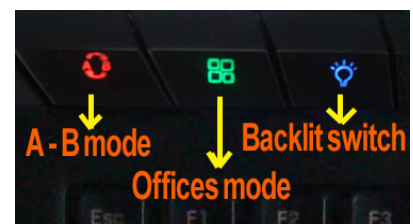

The Cheetah Game Wheel has 17 convenient keys. The 17 keys are fully programmable allowing customized PC Game playing. Included software allows for programming the keys and setting up macros. Cheetah has an A / B profile change key to quickly load a second set of macros.

The Cheetah keyboard's keys use patented Backlight Technology. During the backlit hotkey is toggled on (this hotkey's backlit is closed), These keycaps are blue when the PC is in sleep mode. For normal mode, these keycaps are orange. The faster you type, the orange will turn to red.

The Game-Wheel defaults to A mode. When the A/B profile hotkey is Blue - Gaming Profile A, the A/B profile hotkey is Orange - Gaming Profile B, and the OFFICE hotkey is toggled on to Green - Office Kit mode.
